

BACHELOR OF SCIENCE IN NURSING

PROGRAM DETAILS

If you are a Registered Nurse, Athens State University's Bachelor of Science in Nursing (BSN) program can help broaden your understanding of best practices in nursing and prepare you for leadership positions in a healthcare setting.

The RN to BSN curriculum prepares nurses to:

- Provide professional and quality care that promotes patient safety.
- Employ the elements of evidence-based practice, including evaluating evidence and integrating best practices into patient care.
- Integrate ethics and ethical practice into all aspects of nursing care.
- Demonstrate an understanding of healthcare policy, finance, and regulatory environments, including policy development, disparities in healthcare, and social factors that affect healthcare.
- Use interprofessional communication, collaboration, and relationship-building skills to improve patient health outcomes.
- Implement health promotion and disease prevention strategies for individuals and populations.
- Apply nursing, organizational, and systems leadership concepts across health care settings.

The Athens State University **Bachelor of Science in Nursing** prepares professional graduates for careers in a variety of healthcare settings, including hospitals, physicians' offices, long-term care facilities, home healthcare companies, and more!

Careers could include:

- Critical Care Nurse
- Nurse Case Manager
- Public Health Nurse
- Pediatric Nurse
- Charge Nurse
- Emergency Room/Trauma Nurse

It's how
you finish.
