

## **Health and Safety Committee Minutes**

February 10, 2016

The Health and Safety Committee met on Wednesday, February 10, 2016 at 10:00 am in Waters Hall. Present were Mr. Jerry Crabtree (chair), Ms. Julie Martin (recording), Ms. Jean Martin, Ms. Nancy Croomes, Mr. Cody Smith and Mr. Stephen Downs.

Classroom safety boxes were discussed. Maintenance is in the process of building a prototype to look at the viability of putting one in each classroom.

The Desk Alert Systems was discussed with concerns over those not connected to the network not getting a message. Insured that in the event of an emergency, the PA system as well as the Desk Alert System will be activated.

Much discussion about student self-disclosure and how to deal with students and others on campus that present a concerning behavior. There has been an increase in diagnosed psychological affected students, so hope fully there will be an increase in the number of counselors and office hours on campus.
