

# Drafting Tips: Get Started

Brainstorm... Brain DUMP

Set realistic goals!  
Keep writing!

Embrace every first draft;  
your draft is a stepping  
stone in the writing process  
that you have conquered.

Organize your ideas.

Seek peer reviews; a draft is not  
concrete and can be changed!

Do your research.  
Educate your audience.

Allow yourself enough  
time to draft and revise...  
Do not procrastinate!

Take a brain break.  
Refresh and Reset!
